1 Purpose

At GISP, we acknowledge the critical importance of reducing carbon emissions to combat climate change. As a responsible supplier, we are committed to implementing sustainable practices that minimize our carbon footprint and contribute positively to the global effort to reduce greenhouse gas emissions. Our carbon reduction policy aims to:

- 1.1 **Reduce Greenhouse Gas Emissions:** Actively reduce our emissions through energy-efficient practices, renewable energy sources, and sustainable transportation.
- 1.2 **Promote Sustainable Practices:** Encourage and implement environmentally friendly practices across our operations, supply chain, and product lifecycle.
- 1.3 **Increase Awareness and Training:** Educate our employees, partners, and stakeholders on the importance of carbon reduction and sustainable practices.
- 1.4 **Regular Reporting and Transparency:** Monitor and report our carbon footprint annually, ensuring transparency and accountability in our environmental performance.
- 1.5 **Continuous Improvement:** Regularly review and update our carbon reduction strategies to align with evolving environmental standards and best practices.

2 Scope

- 2.1 This policy applies to all employees and workers. Where appropriate, a copy will also be given to suppliers and customers.

3 Responsibilities

- 3.1 GISP managing director is responsible for overseeing environmental issues and ensuring we remain compliant with any relevant changes in legislation.
- 3.2 All managers are responsible for ensuring this policy's successful implementation within their own departments. All employees and workers are required to adhere to this policy.

4 Implementation Strategies

The actions we will take to make this policy work include:

- 4.1 **Energy Efficiency:** Implement energy-saving measures in our facilities, such as LED lighting, energy-efficient appliances, and smart energy management systems.
- 4.2 **Renewable Energy:** Invest in renewable energy sources, such as solar or wind power, for our operations where feasible.
- 4.3 **Sustainable Transportation:** Optimize logistics to reduce emissions, including the use of fuel-efficient vehicles and exploring electric or hybrid options.

- 4.4 Waste Reduction: Minimize waste in our operations and promote recycling and reuse of materials.
- 4.5 Green Procurement: Prioritize suppliers and partners who also demonstrate a commitment to sustainability and carbon reduction.
- 4.6 Stakeholder Engagement: Collaborate with clients, suppliers, and industry partners to promote wider adoption of carbon reduction practices

5 Commitment to Progress

- 5.1 We commit to setting measurable goals and targets to reduce our carbon emissions. Progress towards these goals will be reviewed regularly, and we will adjust our strategies as needed to ensure continuous improvement.
- 5.2 At GISP limited, we understand that reducing our carbon footprint is an ongoing journey. We are dedicated to making a positive environmental impact through our business operations and supply chain. This policy will guide our actions and decisions as we contribute to a more sustainable and environmentally responsible future.
